

AA Battery Holder 2 Cell AA with Switch and Cover

Description:

This battery holder accommodates two AA batteries to provide a 3V output, complete with a snap-on cover and an integrated ON/OFF switch. It's ideal for powering small electronic devices, DIY projects, and prototyping with microcontrollers like Arduino or Raspberry Pi.

Features:

1. Holds 2 AA batteries (1.5V each) in series
2. Provides 3V total output
3. Built-in slide switch for easy power control
4. Snap-fit plastic cover for added protection
5. Comes with red and black pre-attached wires
6. Durable ABS plastic body
7. Lightweight and compact for portable projects

Specifications:

Battery Type	2 x 1.5V AA
Output Voltage	3V (nominal)
Switch	ON/OFF slide switch
Material	ABS Plastic
Color	Black
Wire Length	~15cm

Package includes:

1 × 2 x 1.5V AA Battery Holder with Cover and ON/OFF Switch – Wired – Black
