

Water Flow Switch SEN-FB21WA

Product Specification

Brand	Saier
Model No.	SEN-FB21WA
Flow Rate	3.5~20L/Min
Body Material	Nylon
Current Rating (Amps)	0.5
Switching Power	10W
Minimum Order Quantity	10 Piece

Product Description

1. Water quality requirements Drinking water health standards,0~100°C.
2. Flow Range3.5~20L/min, starting flow rate can be fine adjustable.
3. Withstand hydraulic pressure1.2MPa.
4. Voltage/Electric Current Below DC100V/AC110V,1A.
5. Switching Power 10W, High voltage normally open,(NO).
6. Insulation Resistor 10^8 , Switching life 10^8 times.
7. Switching Response time0.35ms, release time30s.
8. Installation method : Horizontal direction.
9. Apply to air energy hot pump, solar hot water heater, starting mode of pump, mechanical equipment, instrument meter etc.
