

5000W SCR Motor Controller

Description:

The 5000W AC 220V High-Power Electronic Regulator SCR Voltage Regulator Module can be connected to a lamp or home appliance or electric circuit, then through the keys Adjust the speed, brightness, voltage, temperature.

Features:

1. High-temperature FR-4 PCB
2. 100% High quality and brand new
3. Control the speed of a Brushed AC motor with this controller.
4. High efficiency, high torque, low heat generating.
5. Aluminum sheet cooling, rapid cooling
6. With reverse polarity protection, high current protection
7. High-temperature resistant FR – 4 circuit board.

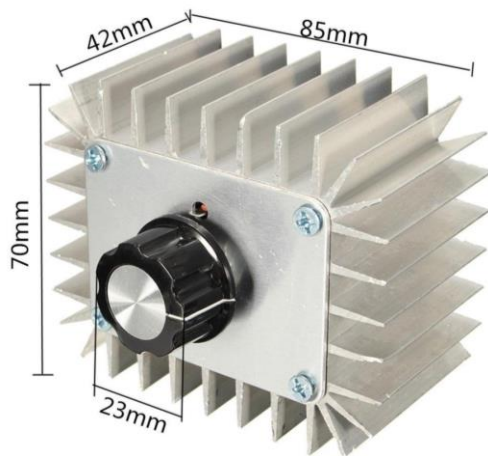

Specifications:

- Operating Voltage (VDC): AC 220V
- Maximum Power (W): 5000

- Voltage Range (adjust temperature or light): AC 0-220V
- Dimensions (mm): 85x70x78
- Weight (g): 185

Dimension:

Applications:

Electric furnace, water heater, lamps, small motor, electric iron etc.
